

## California to require SMOG Testing - A Guaranteed Low Cost Solution - ECOFuelMax

California Air Resources Board (CARB) to require a twice per year Emission inspections for Heavy Duty Trucks & Buses for vehicles that operate in California.

By: [ECO Fuel Systems, LLC](#)

**LOS ANGELES - Dec. 14, 2021 - PRRLog** -- Emission monitoring will be done via onboard diagnostics (OBD) twice per year. Fleet Companies, Drivers and Owners, there is a simple low cost solution to reducing Smog and Carbon Particulates that clog a Diesel Particulate Filter. You could save \$3,000+/yr in Maintenance Expenses and Downtime!

The ECO Fuel System is CARB Approved; Certified Testing shows it can reduce Carbon Pollution 40% to over 70%. The ECO requires No Chemicals or Maintenance and can last 20 years or longer. The proven ECO Solution works by utilizing the principals of Electrolysis. It increases the Reid Vapor Pressure in Diesel Fuel helping it to burn more combustible, cleaner and efficiently.

It only treats fuel, no warranty issues! A cleaner burning fuel produces less smog and Carbon Pollution/Particulates. Who wouldn't want to reduce Diesel Emission Fluid (DEF) use, Diesel Particulate Filter Maintenance and downtime while increasing power and efficiency?

The easy to install ECO Fuel System for a Diesel motor with less than 500 HP costs less than \$400/ea, a diesel motor over 500 HP is less than \$500/ea. The ROI on an over the road Truck can be less than 20 days. Profit by reducing Smog and Carbon Pollution.

Tens of thousands of successful installations over the last 10+ years across the USA and the World is the best proof. Go online to <https://ECOFuelMax.com> and review the reports references and testimonials. The ECO has been BBB A+ rated for over 10 years and comes with a No Risk 90 day Money Back Guaranty.
