

Clean DPF's and EGR Valves in House without HEAT - CobraClean - ECOFuelMax

Save hundreds if not thousands of dollars annually by cleaning your filters in house without damage. CobraClean is an easy to use Low Cost (\$85) Biodegradable cleaning solution that melts Carbon without Heat helping DPF's last longer.

By: [ECO Fuel Systems, LLC](http://ecofuelmax.com)

TAMPA, Fla. - Oct. 17, 2023 - PRLog -- A Clean DPF is crucial to keeping a Truck running efficiently. CobraClean is a Biodegradable Non Toxic, Non Acidic cleaner that melts Carbon and the Soot that gets trapped in Filters (DPF, EGR, SRG). The cleaning process is simple, Remove the filter(s), submerge them in CobraClean for 24 hours. Remove, Rinse, Dry and Reinstall, you're back on the road.

To date filters have been cleaned multiple times (8+) on multiple Vehicles and still come clean, without damage. The cost to clean a DPF is 75% less than a damaging heat cleaning. The CobraCleanUSA cleaner cleans anything with

Carbon soot on it, It even removes oxidization on paint.

Interested in keeping your DPF's cleaner longer and saving Fuel (+/-10%)? For years the ECO Fuel System, a patented, proven guaranteed opportunity has been helping to reduce Carbon Pollution/Particulates +/-75%. The ECO works on the principal of Electrostatic Energy or Electrolysis. It increases the Reid Vapor Pressure in all fuel types' causing it to burn more combustable and cleaner. Save Fuel by Reducing Pollution! The ECO requires No motor modifications, easy to install, No Warranty issues, it only treats fuel. A more combustable cleaner burning Fuel increases MPG. Tens of Thousands of Diesels have been using it successfully for over 10
