

# Trucking Companies, Freightliner and Kenworth are **SAVING Money – ECOFuelMax**

For years Independent Trucking owners have been using the ECO Fuel System. Recently several large companies have been in touch with us to verify the ECO's Good Reputation by initiating testing on their company owned vehicles.

By: [ECO Fuel Systems, LLC](#)

FORT LAUDERDALE, Fla. - Nov. 14, 2023 -

*PRLog* -- Results have been shocking to say the least. Fuel Consumption on average was reduced more than 10% and Forced REGEN Cycles from weekly to monthly. Reports are available online.

School Systems (200+ Districts) the Federal Government: US Border Patrol/Homeland Security, NASA and Law Enforcement have been successfully using this No Chemical, No Maintenance pollution reducing opportunity for 10+ years.

The ECO Fuel System works utilizing the principle of Electrolysis causing fuel to burn

**866 374 0002**

The ECO Fuel System is a patented Made in America solution that has a No Risk Guarantee, if anyone is unhappy return it for a refund. For Transportation and Trucking Companies it is a proven solution to help save Operating Expenses to hopefully help reduce Inflation. The ROI on a over the road truck is less than 20 days.

The ECO Fuel System is a BBB A+ CARB Approved opportunity. For details, go Online (<https://ecofuelmax.com/>) or Call and speak with a Human..

cleaner and more combustible. No motor modifications or warranty exclusions, it only teats fuel. By making fuel burn more completely it has not only shown to reduce Maintenance but increase sustainability as well. A cleaner motor lasts longer.

The ECO Fuel System works successfully on all fuels, Gasoline, Biodiesel, CNG and Diesel. The call is for the reduction of Carbon Pollutants and Greenhouse Gases. All currently on the road vehicles can reduce Hydrocarbons +/-70%. The ECO is a proven immediate answer (TODAY) to reducing Pollution without costing Taxpayers Billions and Trillions of Dollars. What are we waiting for?
